

### Make Pi-motion and your computer in the same LAN.

1) If Pi-motion connected to the same LAN as the PC network via WIFI, we can log in directly on the PC-side Google Chrome or other browser (Pi-motion IP address): 8889 to its Jupyter Lab,

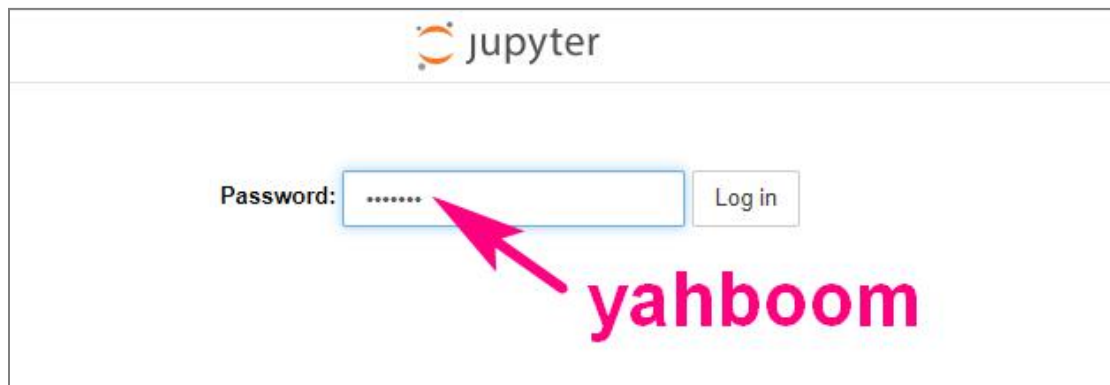

for example: <https://192.168.1.244:8889>

192.168.1.244 is my Pi-motion IP address. You need to input your own IP address.

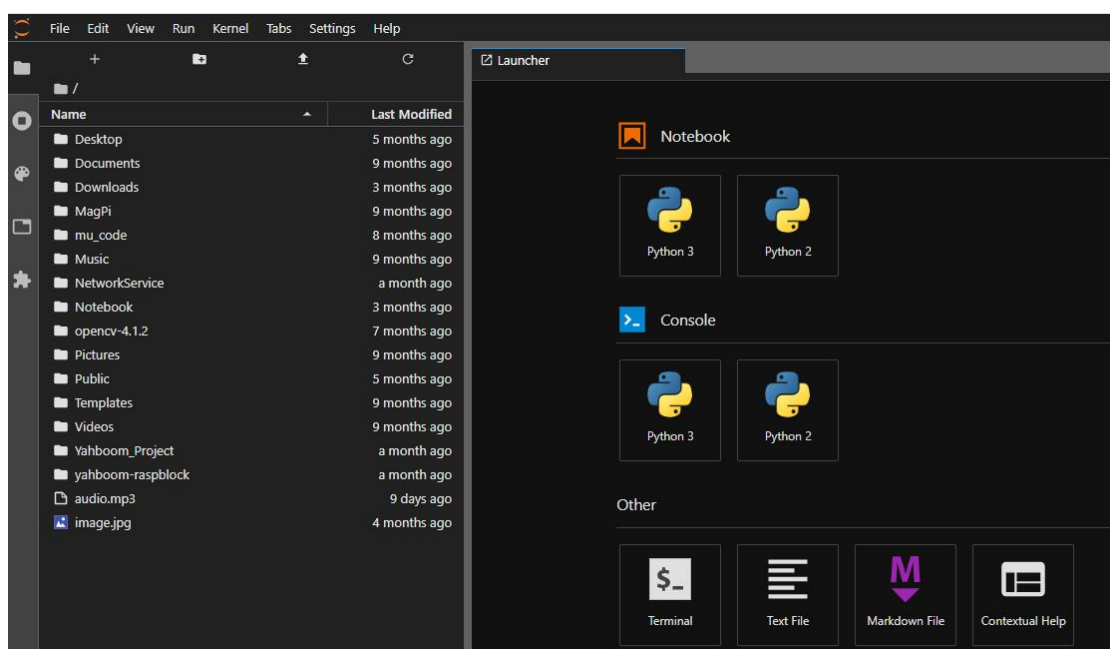

As shown below:

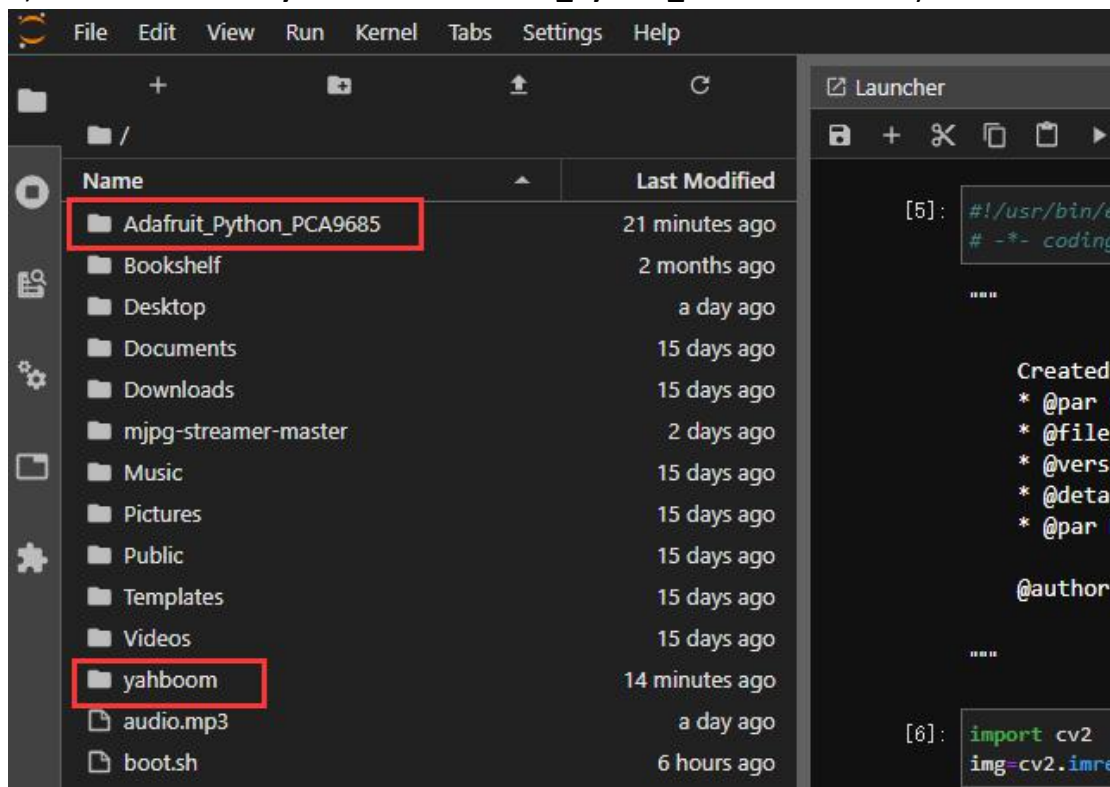

2) Input password. If you use image we provided, password is **yahboom**.

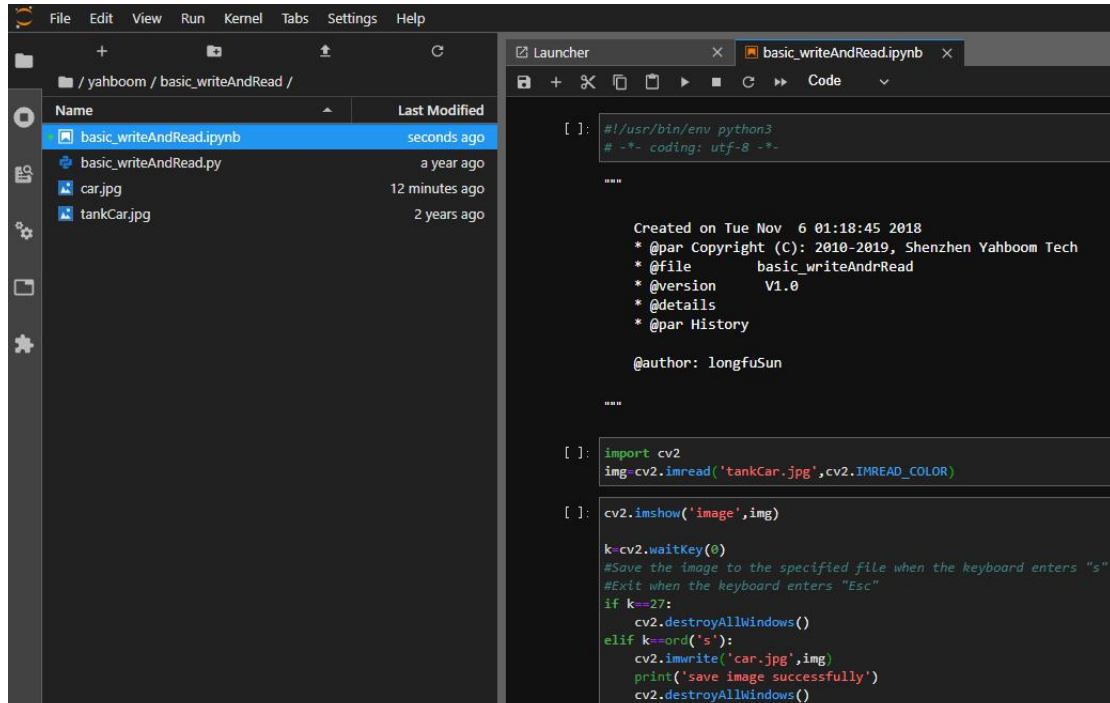

3) You will see following interface.

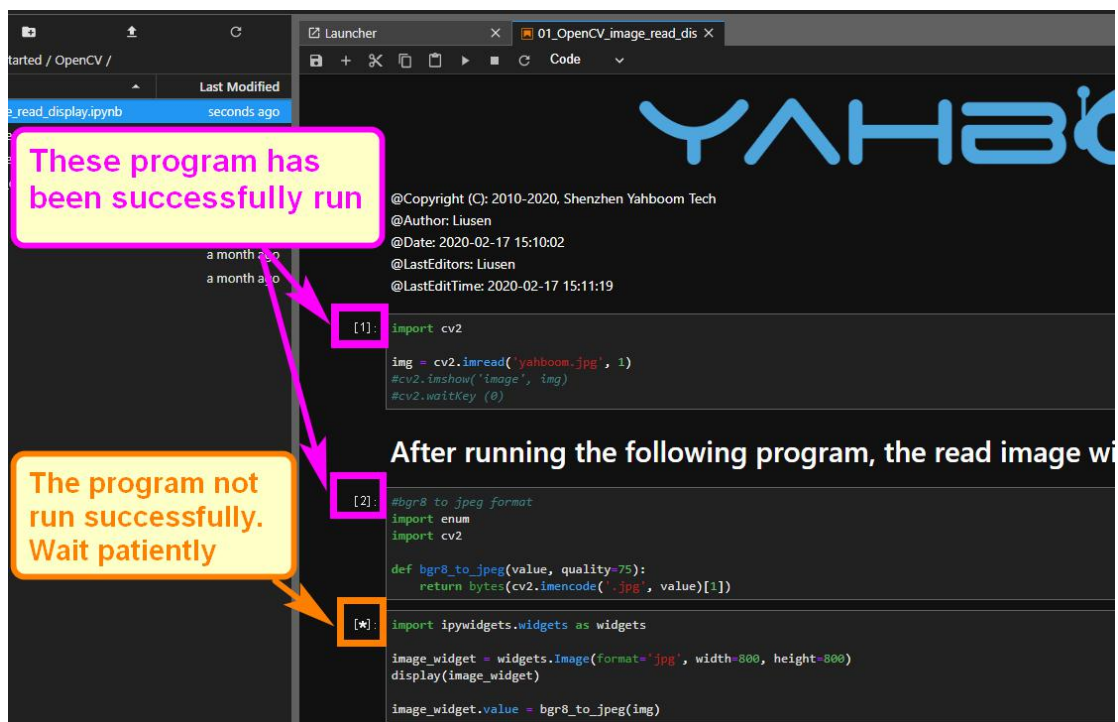

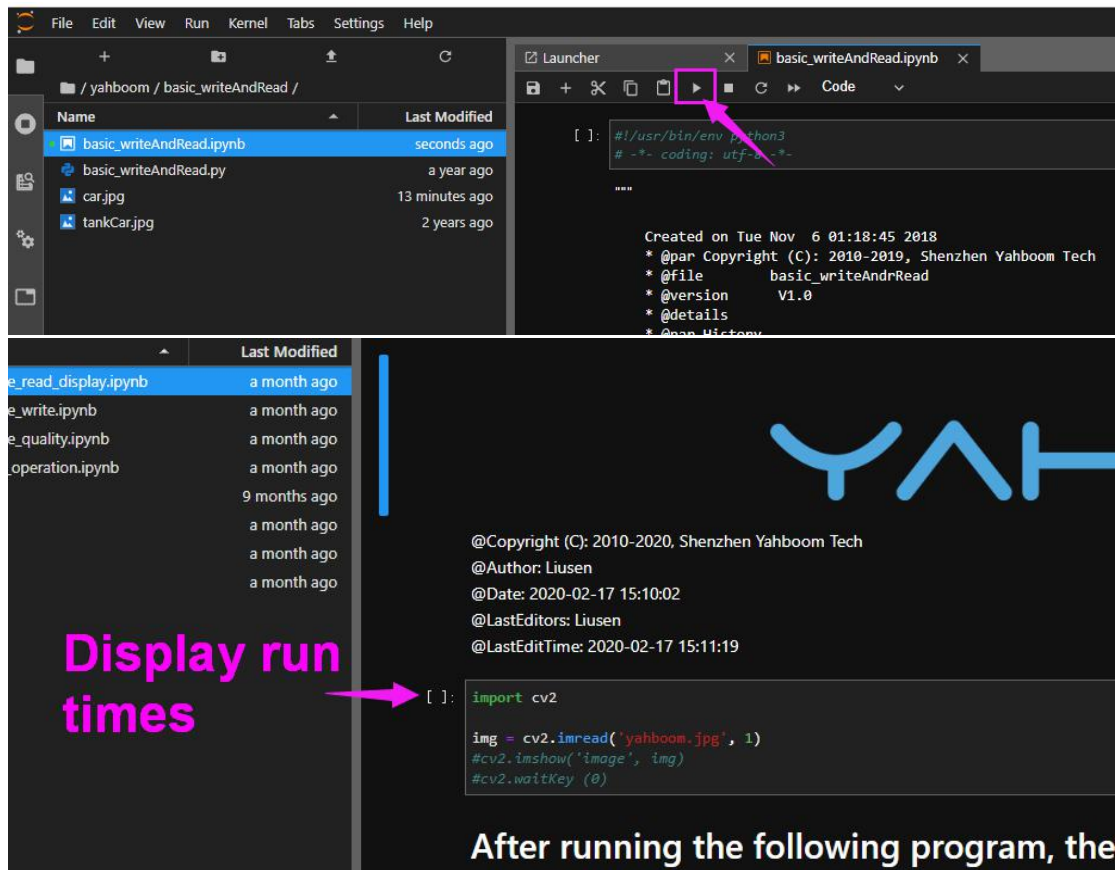

4) You need to enter **yahboom** or **Adafruit\_Python\_PCA9685** directory.

5) You will see some directory, you can enter this directory. And you can see some code.

6) You can click the Run button in the top menu bar to run the program.

7) If you want to exit this program and run another program. You need to click following below. And open another program file.
